TO WHOM IT MAY CONCERN

I am pleased to write this letter of recommendation for ^{student Name} who is applying for admission to your graduate program. As Professor and Head of the Department of Software Engineering at **Delhi Technological University (DTU)**, I have known him throughout his Bachelor of Technology program and have closely observed his academic diligence, technical aptitude, and intellectual maturity.

I taught ^{s.Name} in the course “**Software Testing**” during his fifth semester. Throughout the course, he consistently distinguished himself through his clarity of thought, disciplined work ethic, and strong conceptual grasp. His performance in examinations, assignments, and laboratory work was exemplary, reflecting both theoretical understanding and practical competence. He demonstrated a solid command of testing methodologies, defect analysis, and quality assurance practices.

^{Student Name} commitment to expanding his technical proficiency is evident from the range of projects he pursued during his undergraduate studies. He proactively explored new technologies and applied them effectively to practical problem-solving scenarios. His ability to independently learn and implement tools and frameworks stands out as a testament to his curiosity and perseverance.

In addition, ^{s.Name} has shown commendable dedication to competitive programming and algorithmic problem-solving. He has solved over **700 problems** across platforms such as LeetCode, GeeksforGeeks, and CodeChef — highlighting his analytical thinking, consistency, and sustained effort to improve his computational skills.

Considering his strong academic performance, disciplined approach, and genuine passion for technology, I am confident that ^{s.Name} will excel in your program and contribute meaningfully to your academic community. I recommend him without reservation for admission to your esteemed university.

Sincerely,

Ruchika Malhotra
6/3/24
